A Brief Introduction to Me

I am a compassionate, empathetic, honest, kind, and funny (obviously that one's a bit subjective) person who people have enjoyed having as a colleague and friend. I'm naturally inquisitive and have always taken an interest in the world around me whilst being keen to constantly improve both personally and through learning new skills. I have been through a life full of wonderful experiences, but also challenges and hiccups, which has circled back on itself to lead me to here, updating my web development skills and working towards being a full-stack React developer. By combining early-2000s web development fundamentals with a cutting-edge modern engineering stack I hope to bring genuine value and a supportive spirit to a collaborative team.

Soft Skills and Attributes

- Ability to inspire confidence and trust through a solid work ethic and openness
- Excellent communicator with an engaging, approachable, and friendly manner
- Attentive to detail with an eye on improvement and efficiencies through small changes
- Dedicated, reliable, and dependable even under pressure
- Inquisitive and looking to constantly improve and learn
- Creative and efficient in solving problems

Skills and Experiences

- **Languages & Core Systems:**
  JavaScript (ES6+), HTML5, CSS3, JSX, C, C++, C# (Unity), Java, ActionScript, jQuery
- **Modern Frontend Frameworks:**
  React, React Router, Redux & RTK, TanStack Query, Context API, React-Hook-Form
- **Backend, Architecture & SSR:**
  Node.js, Express v5, RESTful API Development, MVC Architecture, SSR (Pug Engine)
- **Databases & API Security:**
  MongoDB (Atlas & Compass), Mongoose v9 (ODM & CRUD), NoSQL & MySQL, JWT Auth, API Security
- **Creative Coding, Tools & UI/UX:**
  OpenFrameworks, Arduino, Mathematical Modelling & Logic, Graphic Design, UI/UX, Git, ESLint

Education and my Learning Journey

2025 – Present: Udemy Guided Learning – Back-End Development with Node.js, Express, and more
Updated and improved what's taught to use ES Modules and modern tools such as Mongoose 9

2024 – 2025: Udemy Guided Learning – Web Development with React
Used the “Ultimate React Course” as the framework for both regaining confidence with web developer basics and then to learn about modern front-end development with React.

2024: Self Motivated Learning - DaVinci Resolve (Non-Linear Video Editing)
Full training pathway so that I could film and edit a personal project (a 20+ minute mockumentary)

2023 – 2024: Unity Certified Associate Programmer Exam

2022 – 2023: Skills City Bootcamp and Unity Learn Pathways - Unity Developer with C#
I achieved the Unity Essentials, Junior Programmer, and Creative Core pathways as part of the onboarding for the bootcamp and also learnt the basics of 3D modelling and working within the Unity Editor and Hub.

2020 – 2022: Self Motivated Learning - Creative Coding and Installation Development
Built and programmed Arduino sensor arrays using low-level C. Created immersive graphic installations leveraging C++, OpenFrameworks, GLSL shaders, and OpenCV computer vision libraries.

2010 – 2014: Open University - Software Development and Mathematics
BSc level modules including “Mathematical Methods and Modelling”, “Software Development with Java”, “Developing Concurrent Distributed Systems”, “Relational Databases (Theory & Practice)”, and “Natural & Artificial Intelligence”. Earned 1st and Upper 2nd Class Honours on completed exams

2009 – 2010: Self Motivated Learning - A-Level Mathematics
I used the A-Level Mathematics and Further Mathematics books as onboarding for my OU degree courses

2008 – 2009: Self Motivated Learning - Updating Web Developer Skills
Blew the cobwebs off, and updated, my web developer skills to also include jQuery

2000 – 2004: Self Motivated and Work Based Learning - Web Design and Development
ActionScript, Javascript, HTML, CSS, Flash, UI/UX, and Graphic Design with some SQL, PHP, and ASP

1992 – 1995: BA(hons) Film *majored in Cinematography*
West Surrey College of Art and Design, Farnham : Lower Second

1990 – 1992: Btec National Diploma in Design
West Surrey College of Art and Design, Farnham : Merit

Work History (Prior to Medical Career Transitioning)

2021 – 2022 Deputy Manager and Mixologist at Hydeaway
- Implementing and teaching advanced techniques to develop new cocktails and menus

2018 – 2021 Mixologist, Barista, Bartender and Cellar Supervisor at Riverstation
- Creating and delivering a craft beer training session to 20+ people to improve sales

2017 – 2018 Deputy Manager and Cellar Manager at The Crofters Rights
- Installing service-stations to improve efficiency whilst supporting, training, and encouraging staff

2015 – 2017 Bar and Cellar Supervisor at The Three Tuns
- Implementing a stock management system for craft beer to reduce wastage and improve quality

2012 – 2014 Assistant Bar Manager at The Bruton Castle

2012 – 2013 General Assistant at AJ's Studio and Camera Supplies
- Product photography and web content management to increase profile and sales
- Sales advisor and technical support with product demonstrations at large trade shows

2004 – 2012 Freelance Photographer
- Building trust with clients and remaining calm and approachable in highly stressful situations
- Full digital imaging workflow using RAW file editing and Photoshop

2002 – 2004 Web-Designer and Developer / Partner at The Little Dot
- Co-developing a content and design management system for interactive front-ends using Javascript and HTML or Actionscript and Flash which communicated with a PHP and mySQL back-end
- Extending my Javascript libraries for dynamic navigation and animated interactions within ‘static’ websites
- Designing a brand along with associated marketing materials

2001 – 2002 Web-Designer and Developer at UKInternet
- Designing logos, brand palettes, and page layouts in collaboration with multiple clients
- Creating Javascript libraries for more efficient cross browser development
- Pushing ActionScript and Javascript capabilities to produce unique and eye-catching websites

1997 – 2001 Lighting Cameraman on over 200 broadcast pieces (mainly current affairs / education)
- Working as part of small teams telling stories about people from all walks of life including the PM
- Creating innovative aesthetics and lighting designs which could be deployed in a timely manner
- Developing sequences dynamically and creatively in a high paced environment

Before 1997 and in quiet times of freelance work cook, barista, painter/decorator, bartender, and retail sales

2022 – Present: Due to health challenges I could no longer continue to work in such a physically demanding sector as hospitality and so I have since been committed to transitioning to a career in development.
